Reporting Period: July 1, 2025 - June 30, 2026

In accordance with the federal Stop Campus Hazing Act, the California Stop Campus Hazing Act, and the CSU Hazing Policy, the Campus Hazing Transparency Report aims to provide a summary of all substantiated hazing incidents involving recognized and established student organizations that have been investigated and adjudicated through formal university proceedings. This report is designed to promote transparency, accountability, and student safety, and it is updated biannually.

## California State University System Definition of Hazing

The federal definition of hazing: The term ‘hazing’ means any intentional, knowing, or reckless act committed by a person (whether individually or in concert with other persons) against another person or persons regardless of the willingness of such other person or persons to participate, that is committed in the course of an initiation into, an affiliation with, or the maintenance of membership in, a student organization; and causes or creates a risk, above the reasonable risk encountered in the course of participation in the institution of higher education or the organization (such as the physical preparation necessary for participation in an athletic team), of physical or psychological injury including— whipping, beating, striking, electronic shocking, placing of a harmful substance on someone’s body, or similar activity; causing, coercing, or otherwise inducing sleep deprivation, exposure to the elements, confinement in a small space, extreme calisthenics, or other similar activity; causing, coercing, or otherwise inducing another person to consume food, liquid, alcohol, drugs, or other substances; causing, coercing, or otherwise inducing another person to perform sexual acts; any activity that places another person in reasonable fear of bodily harm through the use of threatening words or conduct; any activity against another person that includes a criminal violation of local, state, tribal or federal law; and any activity that induces, causes, or requires another person to perform a duty or task that involves a criminal violation of local, state, tribal, or federal law.

The term “hazing” is defined broadly. The CSU Student Code of Conduct, found at Title 5, California Code of Regulations, Section 41301 (b)(8) and California Penal Code section 245.6 defines “hazing” as “any method of initiation or pre-initiation into a student organization or student body, whether or not the organization or body is officially recognized by an educational institution, which is likely to cause physical harm, personal degradation or disgrace resulting in physical or mental harm, to any former, current, or prospective student of any school, community college, college, university or other educational institution” as well as “any act likely to cause physical harm, personal degradation or disgrace resulting in physical or mental harm, to any former, current, or prospective student of any school, community college, college, university or other educational institution. “Hazing” does not include customary and ordinary athletic events or school sanctioned events.”

Any method or act of initiation or preinitiation into (or the maintenance of status within) a student organization or student body, whether or not the organization or body is officially recognized by

the CSU, which is likely to cause serious bodily injury or mental harm to any former, current, or prospective student of the CSU is prohibited and constitutes a violation of this policy. Hazing includes not just conduct or actions likely to cause physical harm or pose a risk to the health and safety of an individual(s) but also conduct likely to cause personal degradation that could result in physical or mental harm. Hazing includes any action taken or situation created, whether on or off a campus, to produce mental or physical discomfort, embarrassment, harassment, or ridicule.

Section 41301(b)(8) makes clear that “neither the express or implied consent of a victim of hazing, nor the lack of active participation in a particular hazing incident is a defense. The express or implied consent of a victim of hazing does not excuse or constitute a defense. Hazing violates this policy regardless of a person’s consent or willingness to participate and even if the person voluntarily submits to being hazed.

Section 41301(b)(8) also makes clear that apathy or acquiescence in the presence of hazing is not a neutral act and is also a violation of this section.” Passive participation in hazing (such as attending a hazing incident or being a spectator) violates this policy. The tacit or explicit endorsement, approval or validation of hazing violates this policy. In addition, an individual who is in a position to be able to take reasonable action to stop or prevent hazing but fails to do so violates this policy.

Participation in hazing, actively or passively, will result in both individual student and student organizational disciplinary action, including possible expulsion from the California State University system and a permanent loss of recognition for the student organization. Disciplinary action will also be initiated against organizational officers who permit hazing to occur. Organizational officers are expected and required to be aware of any potential hazing and to prevent any such conduct from occurring.

Student organizations and their organizational officers are responsible for controlling the actions of their alumni, inactive members, and any other individuals participating in their member activities.
